

To be better prepared for contractor consultations, try to list all of the issues you're having with your existing windows. ***Non-print option: click on blanks, type and save!***

Your Name: _____

Your Address: _____

These documents are good to save and provide to contractors prior to consultation.

Select the issues related to touch.
Typically this relates to overall window function, opening and closing.

- Damaged hardware
- Opening/closing difficulty - weight
- Opening/closing difficulty - sticking
- Crank difficulty
- Tilt / accessibility difficulty

NOTES / QUESTIONS

Select the issues related to visible damage you can see.

- Exterior finish chipping / cracking
- Exterior finish fade
- Gaps or openings
- Sagging
- Mold / rot / moisture damage
- Condensation / fogging
- Aesthetic / finish / material upgrade
- Furniture or interior fading (daylighting)

NOTES / QUESTIONS

A little more difficult to identify are issues related to interior home temperatures. Identify inconsistencies or scenarios that are uncomfortable.

- Feeling of "drafty" windows
- Room temperature - too hot in summer
- Room temperature - too cold in winter
- Feeling of air movement

NOTES / QUESTIONS
